FLEXIBILITY · LEADERSHIP · INNOVATION · PRAGMATISM · SUPPORT

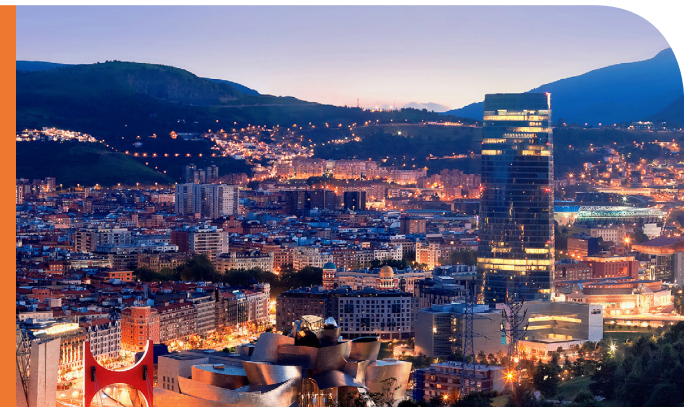

Mission

Velatia is a group that specialises in network optimisation. We provide reliable and innovative solutions thanks to our integration capabilities and our personal commitment to our customers, partners and suppliers, as well as to our people, our environment and society at large.

Our mission is based on excellence, technology and sustainability.

Vision

We aspire to be an innovative and trustworthy group that contributes positively in all the areas of activity in which we are present, ensuring performance and the creation of value for all our stakeholders.

€645
million in turnover

Operating capacity in five continents

A hand holding a glowing lightbulb, symbolizing an idea or innovation. The image features a warm, golden light from the bulb, which is held by a hand. A large, semi-transparent white geometric shape, resembling a stylized 'V' or a series of overlapping planes, is positioned on the left side of the frame. The background is softly blurred, showing hints of other light sources.

Velatia World

More than the sum of our parts

Velatia is a family, industrial and technological group
made up of companies that offer advanced technological
solutions in line with smart-city development

Technology for Your sustainable grid.

Experts in customised, reliable, high-tech solutions for electrical infrastructure

Public distribution

Smart and efficient electricity distribution

Renewable energies

Proprietary solutions and global services for the connection, protection and management of renewable generation infrastructure

Energy end users

Supply of turnkey solutions for smart grid management of critical infrastructures

velatia

Integration and technological engineering

Technological services. Accompanying businesses and organisations in their digital transformation process

Information and Communication Technologies (ICT)

We apply technology to connect, process and manage information securely

Operational Technologies (OT)

We apply technology to operate business processes and exploit the information generated

Electronic component manufacturing services

Design engineering, industrialisation, manufacturing and electronic testing

Segments

Multimedia, Industry, Railway, Electromedicine and Energy

Certifications

ISO9001, ISO14001, ISO45001, ISO13485 and IRIS

velatia

Specialists in energy services

Helping to efficiently manage energy
demand in organisations seeking to
optimise their energy use

 stratenergy
velatia

Energy Management

Knowledge at the disposal of companies,
reducing their energy costs and improving their
competitiveness without affecting their business

velatia

A key player in aeronautical components

Wec designs and produces critical aircraft engine and turbine parts for the world's leading manufacturers

Special processes

Wec has an extensive range of NADCAP accredited special processes and is on the Qualified Manufacturers List (QML)

Engine components

Components for both hot-end and cold-end sections of the engine integrated in major commercial aircraft

System components

Air system components for aircraft and helicopters

Design engineering and development of electromechanical solutions

**Mechanical engineering and IT
solutions in the field of smart
machines**

Singular solutions

Smarmec is the result of a commitment to innovation and highly specialised knowledge applied to design, materials, manufacturing technologies and logistic flows

Prototypes and small series

Experts in bonding technologies and cosmetic finishes

Large series

Extensive experience in the development of serial production runs

velatia

Shared services unit

gosa
velatia

Responsible for the administrative management of the group according to common criteria of quality and cost optimisation

Administrative management

Supporting the administrative management of Velatia to help achieve the group's objectives
