Mission, Vision and Values

Mission

Velatia is a group specialised in network optimisation that provides reliable and innovative solutions through our integration capacity and personal commitment to our customers, partners and suppliers, our people, our environment and society in general.

Our mission is based on excellence, technology and sustainability.

Vision

We aspire to be an innovative group that inspires trust and contributes positively in all areas where we are present, ensuring a high level of performance and the creation of value for all our stakeholders.

Values

**Flexibility · Leadership · Innovation ·
Pragmatism · Support**
