**Reference**

The **values** that define us:

**FLEXIBILITY · LEADERSHIP · INNOVATION · PRAGMATISM · SUPPORT**

## Mission

Velatia is a group that specialises in network optimisation. We provide reliable and innovative solutions thanks to our integration capabilities and our personal commitment to our customers, partners and suppliers, as well as to our people, our environment and society at large.

Our mission is based on excellence, technology and sustainability.

## Vision

We aspire to be an innovative and trustworthy group that contributes positively in all the areas of activity in which we are present, ensuring performance and the creation of value for all our stakeholders.

more than  
**50** years  
of experience

centre  
for monitoring, cloud  
operations, cybersecurity  
and IT

**+3800**  
staff

**€736**  
million in turnover

# Operating capacity in five continents

A hand holding a glowing lightbulb, symbolizing an idea or innovation. The image features a warm, golden light from the bulb, which is held by a hand. A large, white, geometric shape, resembling a stylized 'V' or a series of overlapping triangles, is superimposed over the left side of the image, partially obscuring the hand and the background. The background is softly blurred, showing hints of other light sources.

**Velatia World**

## More than the sum of our parts

Velatia is a family, industrial and technological group made up of companies that offer advanced technological solutions in line with smart-city development.

# Technology for a new electric world

---

High-tech, customised  
electrical solutions.

**ormazabal**  
velatia

## Digitalisation and transformation of the electricity grid

Technology partner in the deployment of smart  
grids.

## Green generation and storage

Integration of renewable generation and storage  
into the electricity grid.

## Green mobility

Integration of any charging infrastructure into the  
electricity grid.

## Sustainable buildings and infrastructures

Electrification and connection of infrastructures  
with critical energy needs.

**velatia**

# Efficient, robust and secure telecommunications networks

Technological services, specialising in communications infrastructures and cybersecurity

## Data centre

Data centre and cloud applications to meet the challenges of the coming years.

## Communications infrastructure

Ability to adjust to the needs of each organisation in a secure and rapidly deployable manner.

## Cybersecurity

Services to protect assets, information, operations... both IT and OT in an on-demand model and sector-specific solutions.

velatia

# Electronic component manufacturing services

---

Design engineering, industrialisation, manufacturing and electronic testing

## Segments

Multimedia, Industry, Railway, Electromedicine and Energy.

## Certifications

ISO9001, ISO14001, ISO45001, ISO13485 and IRIS.

velatia

# Specialists in energy services

---

Helping to efficiently manage energy  
demand in organisations seeking to  
optimise their energy use

 stratenergy  
velatia

## Energy Management

Knowledge at the disposal of companies,  
reducing their energy costs and improving their  
competitiveness without affecting their business.

velatia

# A key player in aeronautical components

Wec designs and produces critical aircraft engine and turbine parts for the world's leading manufacturers

## Special processes

Wec has an extensive range of NADCAP accredited special processes and is on the Qualified Manufacturers List (QML).

## Engine components

Components for both hot-end and cold-end sections of the engine integrated in major commercial aircraft.

## System components

Air system components for aircraft and helicopters.

# Design engineering and development of electromechanical solutions

---

**Mechanical engineering and IT  
solutions in the field of smart  
machines**

## **Singular solutions**

Smarmec is the result of a commitment to innovation and highly specialised knowledge applied to design, materials, manufacturing technologies and logistic flows.

## **Prototypes and small series**

Experts in bonding technologies and cosmetic finishes.

## **Large series**

Extensive experience in the development of serial production runs.

velatia

# A benchmark in uninterruptible power solutions

We design, manufacture and market industrial power electronics equipment and systems.

With more than 35 years of experience, our solutions are found in sectors such as: industrial, naval, aeronautical, railway and electrical.

velatia

# Shared services unit

---

**gosa**  
velatia

Responsible for the administrative management of the group according to common criteria of quality and cost optimisation

## Administrative management

Supporting the administrative management of Velatia to help achieve the group's objectives.
